Daily Morning Analysis Report

Tuesday, October 07, 2025

CONTENTS

- Technical Outlook for Gold and Silver Market
- Trends and Key Price Levels
- Updates on economic indicators and upcoming data releases

Daily Market Report

- **Gold hit a fresh all-time high** in the Asian session but faced slight pullback due to USD strength.
- **US Dollar gains modestly**, capping gold's upside despite lacking strong bullish conviction.
- **Rate cut expectations** (two cuts in 2025) continue to support gold amid a dovish Fed outlook.
- **US government shutdown** persists, raising economic concerns and boosting gold's safe-haven appeal.
- **S&P 500 and Nasdaq hit record highs**, dampening gold demand on improved risk appetite.
- **Gold remains overbought**, suggesting possible short-term consolidation before further upside.
- **Investors await key Fed speeches** and FOMC Minutes this week for monetary policy cues.
- **Geopolitical tensions** in Ukraine and Gaza continue to underpin demand for gold as a safe haven.
- **Ukraine's drone strikes** and nuclear plant shelling heighten global security concerns.
- **Israel-Hamas peace talks** show early progress, but geopolitical risks still loom large.
