## Daily Morning Analysis Report

---

**Tuesday, 10 February 2026**

### CONTENTS

- Technical Outlook for Gold and Silver
- Market Trends and Key Price Levels
- Updates on economic indicators and upcoming data releases

## Daily Market Report

- **Gold (XAU/USD)** edges lower in the Asian session, snapping a two-day winning streak but holding the key \$5,000 psychological level.
- **A positive risk-on** sentiment weighs on safe-haven demand after Japan’s snap election outcome reduced political uncertainty.
- **Easing Middle East tensions**, following constructive US–Iran nuclear talks, further dampen demand for defensive assets like Gold.
- **US and Iran agreed** to continue diplomacy, with officials from both sides describing the talks as productive and positive.
- **Despite the pullback**, downside in Gold remains limited due to expectations of Fed rate cuts and a softer US Dollar.
- **Markets are pricing** in at least two 25 bps Fed rate cuts, with the first potentially coming as early as June.
- **Fresh concerns over the Federal Reserve’s** independence, sparked by political pressure comments from former President Trump, weigh on the USD.
- **The US Dollar trades** near a one-week low, supporting non-yielding Gold and preventing deeper losses.
- **Traders remain** cautious ahead of key US data, including Retail Sales (Tuesday), Nonfarm Payrolls (Wednesday), and CPI (Friday).
- **China’s central bank** extended its gold-buying streak to 15 months, reinforcing longer-term structural demand for the metal.
