Daily Morning Analysis Report

Monday, 09 March 2026

CONTENTS

- Technical Outlook for Gold and Silver
- Market Trends and Key Price Levels
- Updates on economic indicators and upcoming data releases

Daily Market Report

PRECIOUS METALS TRADING

- **Gold (XAU/USD)** started the week under pressure, falling to a four-day low during the Asian trading session.
- **Inflation concerns boosted the US Dollar**, which is the main reason behind the decline in gold prices.
- **Crude oil prices jumped more than 25%**, increasing fears of higher global inflation.
- Rising inflation expectations reduce the chances of near-term interest rate cuts by the US Federal Reserve (Fed).
- **The stronger US Dollar** reached its highest level since November 2025, making gold less attractive.
- **Gold still found** some support near the important \$5,000 psychological level.
- **Ongoing Middle East tensions** continue to provide some safe-haven demand for gold.
- **The US-Israel military campaign** against Iran has entered its tenth day with no clear sign of ending.
- **Iran has appointed** Mojtaba Khamenei, son of Ayatollah Ali Khamenei, as the new Supreme Leader, signaling a continuation of hardline leadership.
- **Investors fear further** escalation of geopolitical tensions, especially after Donald Trump criticized the leadership change, which could affect global markets.
