## Daily Morning Analysis Report

---

**Friday, 12 June 2026**

### CONTENTS

- Technical Outlook for Gold and Silver Market
- Trends and Key Price Levels
- Updates on economic indicators and upcoming data releases

## Daily Market Report

- Gold is set for a weekly loss as persistent inflation and rate-hike fears continue to weigh on sentiment.
- Trump signalled de-escalation, saying an Iran agreement is "in final shape," though uncertainty around the deal still pressures gold.
- US forces intercepted Iranian drones targeting shipping in the Hormuz, keeping regional tensions simmering despite easing rhetoric.
- The USD gained ground above 99.50 as hot US PPI data and lingering Middle East tensions fuelled demand.
- Silver slipped to near \$67.00 as Middle East tensions flared, after earlier rallying from a \$61.50 low but remaining bearish.
- Oil hangs near a two-month low, vulnerable below \$85.00 and the 100-day SMA, as easing tensions reduce supply-risk premiums.
- Gold rebounded toward \$4,250 on easing US-Iran tensions before slipping again as fresh risks emerged.
- Gold slipped after US PPI data came in hotter than expected, reinforcing the hawkish Fed narrative.
- The USD retreated from a ten-week high after Trump called off planned strikes on Iran, easing some safe-haven demand.
- Gold remains below a key consolidation level despite a modest rise, reflecting indecision as traders weigh conflicting signals.
