Daily Morning Analysis Report

Tuesday, 16 June 2026

CONTENTS

- Technical Outlook for Gold and Silver Market
- Trends and Key Price Levels
- Updates on economic indicators and upcoming data releases

Daily Market Report

- Gold extends gains as the US-Iran ceasefire holds, with Trump touting plans to reopen the Strait of Hormuz this week.
- Trump declared Iran has agreed to never pursue a nuclear weapon, reinforcing the broader peace framework.
- Gold moved higher as easing Fed rate-hike fears added to the bullish momentum from the ceasefire.
- Silver edges lower below \$70.00, holding a bearish bias under its 100-day SMA despite earlier reclaiming the 200-day SMA on a double-bottom pattern.
- The USD Index holds onto Monday's gains near 99.70 as traders await the Fed's policy decision.
- Oil hovers around \$80.00 as traders await further developments on US-Iran peace talks.
- WTI remains capped at \$80.00 as the market weighs whether the ceasefire will hold against lingering Hormuz supply risks.
- The USD weakened on the US-Iran peace deal but stayed supported by a still-hawkish Fed outlook.
- Gold soared above \$4,300 on peace deal optimism, though analysts caution the agreement "isn't done a deal" yet.
- Markets now turn their focus to Wednesday's FOMC meeting as the next major catalyst for gold and the dollar.
